## Notes

**Repository** For storing, tracking changes to, and collaborating on a piece of software.

**PR** "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open    Resolved/unresolved.

Avg Issue/PR    Average time issues/pull requests stay open for before being closed.

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

Traffic metrics of websites associated with this project.

### Notes

Active Users    [Distinct users who visited the website](#) .

New Users    [Users who visited the website for the first time](#) .

Engaged Sessions    [Visits that had significant interaction](#) .

"Top" metrics are measured by number of engaged sessions.
