No data

## Notes

- Repository For storing, tracking changes to, and collaborating on a piece of software.
  - PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.
  - Closed/Open Resolved/unresolved.
  - Avg Issue/PR Average time issues/pull requests stay open for before being closed.
- Only the `main` /default branch is considered for metrics like # of commits.
- # of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

Traffic metrics of websites associated with this project.

## Notes

- Active Users [Distinct users who visited the website](#) .
  - New Users [Users who visited the website for the first time](#) .
  - Engaged Sessions [Visits that had significant interaction](#) .
- "Top" metrics are measured by number of engaged sessions.
