## </> Repositories

Software repositories associated with this project.

| Name    | Description | Stars | Watchers | Forks | Issues | PRs | Commits | Contrib. |
|---------|-------------|-------|----------|-------|--------|-----|---------|----------|
| No data |             |       |          |       |        |     |         |          |

| Name    | Tags | Last Commit | Avg Issue | Avg PR | Languages | License | Readme | Contributing | Dependencies |
|---------|------|-------------|-----------|--------|-----------|---------|--------|--------------|--------------|
| No data |      |             |           |        |           |         |        |              |              |

Notes

|              |   |
|--------------|---|
| Repository   | For storing, tracking changes to, and collaborating on a piece of software. |
| PR           | "Pull request", a draft change (new feature, bug fix, etc.) to a repo.      |
| Closed/Open  | Resolved/unresolved.  |
| Avg Issue/PR | Average time issues/pull requests stay open for before being closed.        |

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

Traffic metrics of websites associated with this project.

## Notes

|                  |   |
|------------------|---|
| Active Users     | <a href="#">Distinct users who visited the website</a>  .              |
| New Users        | <a href="#">Users who visited the website for the first time</a>  . |
| Engaged Sessions | <a href="#">Visits that had significant interaction</a>  .           |

"Top" metrics are measured by number of engaged sessions.
