## Notes

Repository	For storing, tracking changes to, and collaborating on a piece of software.									
PR	"Pull request", a draft change (new feature, bug fix, etc.) to a repo.									
Closed/Open	Resolved/unresolved.									
Avg Issue/PR	Average time issues/pull requests stay open, or before being closed.									
Only the main/default branch is considered for metrics like # of commits. # of dependencies is totaled from all manifests in repo, direct and transitive, e.g. package.json + package-lock.json.	<div> <div>Synaptic vesicle-omics in mice captures signatures of aging and synucleinopathy.</div> <div>DOI </div> </div>
