### Notes

Repository	For storing, tracking changes to, and collaborating on a piece of software.
------------	---

PR	"Pull request", a draft change (new feature, bug fix, etc.) to a repo.
Closed/Open	Resolved/unresolved.
Avg Issue/PR	Average time issues/pull requests stay open for before being closed.

Only the main/default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. package.json + package-lock.json.

A nested case-control study of untargeted plasma metabolomics and

### Analytics

Traffic metrics of websites associated with this project.

### Notes

- Active Users [Distinct users who visited the website](#)
- New Users [Users who visited the website for the first time](#)
- Engaged Sessions [Visits that had significant interaction](#). Total: 38

"Top" metrics are measured by number of engaged sessions.
