## Notes

Repository      For storing, tracking changes to, and collaborating on a piece of software.

PR                "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open     Resolved/unresolved.

Avg Issue/PR   Average time issues/pull requests stay open for before being closed.

Only the `main`/default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.
