## </> Repositories

Software repositories associated with this project.

| Name | Description | Stars | Watchers | Forks | Issues  | PRs | Commits | Contrib. |
|------|-------------|-------|----------|-------|---------|-----|---------|----------|
|      |             |       |          |       | No data |     |         |          |

| Name | Tags | Last Commit | Avg Issue | Avg PR | Languages | License | Readme  | Contributing | Dependencies |
|------|------|-------------|-----------|--------|-----------|---------|---------|--------------|--------------|
|      |      |             |           |        |           |         | No data |              |              |

## Notes

Repository For storing, tracking changes to, and collaborating on a piece of software.

PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open Resolved/unresolved.

Avg Issue/PR Average time issues/pull requests stay open for before being closed.

Only the `main`/default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

Traffic metrics of websites associated with this project.

## Notes

Active Users [Distinct users who visited the website ↗](#).

New Users [Users who visited the website for the first time ↗](#).

Engaged Sessions [Visits that had significant interaction ↗](#).

"Top" metrics are measured by number of engaged sessions.
