Avg Issue/PR Average time issues/pull requests stay open for before being closed.

#### Notes

Only the main /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. package.json + package-lock.json.

SIR Scimago Journal Rank [7]

## Analytics

Traffic metrics of websites associated with this project.

New Users <u>Users who visited the website for the first time 2.</u>

Engaged Sessions <u>Visits that had significant interaction</u> **?**.

"Top" metrics are measured by number of engaged sessions.
