Developed with support from NIH Award U54 OD036472

No data

Notes

Repository	For storing, tracking changes to, and collaborating on a piece of software.
PR	"Pull request", a draft change (new feature, bug fix, etc.) to a repo.
Closed/Open	Resolved/unresolved.
Issue/PR Avg	Average time issues/pull requests stay open for before being closed.

Only the `main`/default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

🔍 Analytics

Website metrics associated with this project.

Notes

Active Users   Distinct users who visited the website ↗ .

New Users   Users who visited the website for the first time ↗ .

Engaged Sessions   Visits that had significant interaction ↗ .

"Top" metrics are measured by number of engaged sessions.
