

## Core Project U24OD036598

### Overview

High-level info about this project.

#### Projects

4U24OD036598-08  
3U24OD036598-08S1  
9U24OD036598-07  
3U24OD036598-07S1  
3U24OD036598-07S2

#### Name

Molecular Transducers of Physical  
Activity (MoTrPAC)

#### Award

\$7.9M

#### Publications

15 publications

#### Repositories

- repositories

#### Analytics

- properties

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                | Authors                                                                                    | RC<br>R        | SJ<br>R        | Cit<br>ati<br>ons | Cit.<br>/ye<br>ar | Journal         | Pub<br>lish<br>ed | Upd<br>ated  |

### Notes

|              |                                                                             |
|--------------|-----------------------------------------------------------------------------|
| Repository   | For storing, tracking changes to, and collaborating on a piece of software. |
| PR           | "Pull request", a draft change (new feature, bug fix, etc.) to a repo.      |
| Closed/Open  | Resolved/unresolved.                                                        |
| Issue/PR Avg | Average time issues/pull requests stay open for before being closed.        |

Built on Apr 11, 2026

Developed with support from NIH Award [U54 OD036472](#)

... or dependencies is totaled from all manifests in repo, direct and transitive, e.g., package1.json + package1.json.json +

## Analytics

Website metrics associated with this project.

### Notes

Active Users      [Distinct users who visited the website](#) .

New Users      [Users who visited the website for the first time](#) .

Engaged Sessions      [Visits that had significant interaction](#) .

"Top" metrics are measured by number of engaged sessions.
