

## Core Project R03OD034497

### Overview

High-level info about this project.

#### Projects

1R03OD034497-01

#### Name

Integrating metagenomics data into accurate mass stool metabolite identifications

#### Award

\$319K

#### Publications

7 publications

#### Repositories

- repositories

#### Analytics

- properties

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                | Author<br>s                                                 | RC<br>R        | SJR            | Cita<br>tion<br>s | Cit./<br>yea<br>r | Journal                                  | Publ<br>ishe<br>d | Upda<br>ted       |

SJR [Scimago Journal Rank](#)

## </> Repositories

Software repositories associated with this project.

Sorry, you're not authorized to view this data

a

### Notes

Repository      For storing, tracking changes to, and collaborating on a piece of software.

Built on Mar 26, 2026

Developed with support from NIH Award [U54 OD036472](#)

Issue/PR Avg      Average time issues/pull requests stay open for before being closed.

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

Website metrics associated with this project.
