

## Core Project R03OD036498

### Overview

High-level info about this project.

#### Projects

1R03OD036498-01

#### Name

Discovery of neoepitope  
immunotherapeutic targets in diffuse  
pediatric high-grade gliomas

#### Award

\$356K

#### Publications

3 publications

#### Repositories

- repositories

#### Analytics

- properties

 Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                   | Authors                                                     | R<br>C<br>R | SJ<br>R       | Cita<br>tion<br>s | Cit.<br>/ye<br>ar | Journal                                   | Publ<br>ishe<br>d | Upda<br>ted  |

### Notes

|              |                                                                             |
|--------------|-----------------------------------------------------------------------------|
| Repository   | For storing, tracking changes to, and collaborating on a piece of software. |
| PR           | "Pull request", a draft change (new feature, bug fix, etc.) to a repo.      |
| Closed/Open  | Resolved/unresolved.                                                        |
| Issue/PR Avg | Average time issues/pull requests stay open for before being closed.        |

Built on Mar 31, 2026

Developed with support from NIH Award [U54 OD036472](#)

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

Website metrics associated with this project.

Sorry, you're not authorized to view this data

### Notes

Active Users      [Distinct users who visited the website](#) .

New Users      [Users who visited the website for the first time](#) .

Engaged Sessions      [Visits that had significant interaction](#) .

"Top" metrics are measured by number of engaged sessions.
