

## Core Project R03OD034493

### Overview

High-level info about this project.

#### Projects

1R03OD034493-01

#### Name

Cross Repository Metabolomics Data  
and Workflow Integration

#### Award

\$303K

#### Publications

8 publications

#### Repositories

- repositories

#### Analytics

- properties

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                               | Authors                                                  | RC<br>R        | SJ<br>R        | Cit<br>ations | Cit.<br>/year | Journal          | Pub<br>lish<br>ed | Upd<br>ated |

## </> Repositories

Software repositories associated with this project.

Sorry, you're not authorized to view this data

a

Built on May 22, 2026

Developed with support from NIH Award [U54 OD036472](#)

PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open Resolved/unresolved.

Issue/PR Avg Average time issues/pull requests stay open for before being closed.

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

## Analytics

### Notes

Active Users      [Distinct users who visited the website](#) .

New Users      [Users who visited the website for the first time](#) .

Engaged Sessions      [Visits that had significant interaction](#) .

"Top" metrics are measured by number of engaged sessions.
