

## Core Project U24OD038422

### Overview

High-level info about this project.

#### Projects

4U24OD038422-02  
1U24OD038422-01

#### Name

U24-Uncovering the Shared Genetic  
Origins of Childhood Cancer and  
Structural Birth Defects Through  
Enhanced Data Integration and  
Analysis with the CFDE Data Distillery  
Knowledge Graph.

#### Award

\$4.4M

#### Publications

6 publications

#### Repositories

- repositories

#### Analytics

- properties

 Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                | Authors                                                 | RCR   | SJR   | Citations | Cit./year | Journal               | Published | Updated     |

2025 May 3, 2026

Software repositories associated with this project.

### Publications (cumulative)

Total: 6

## Notes

Repository For storing, tracking changes

PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open Resolved/unresolved.

Notes Issue PR Avg Average time issues/pull requests stay open for before being closed.

BCR [Bibliographic Citation Ratio](#) Only the main/default branch is considered for metrics like # of commits.

SJR [Scimago Journal Rank](#)

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. package.json + package-lock.json.
