

## Core Project OT2OD036435

### Overview

High-level info about this project.

| Projects          | Name               | Award  | Publications    | Repositories   | Analytics    |
|-------------------|--------------------|--------|-----------------|----------------|--------------|
| 1OT2OD036435-01   | The CFDE Workbench | \$7.2M | 18 publications | - repositories | - properties |
| 3OT2OD036435-01S2 |                    |        |                 |                |              |
| 3OT2OD036435-01S1 |                    |        |                 |                |              |

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                | Authors                                            | RCR   | SJR   | Citations | Cit./year | Journal                | Published | Updated     |

## </> Repositories

### Publications (cumulative)

Total: 18

## Notes

Repository For storing, tracking changes

PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open Resolved/unresolved.

## Notes

Issue/PR Avg Average time issues/pull requests stay open for before being closed.

RCR [Relative Citation Ratio](#)

Only the main/default branch is considered for metrics like # of commits.

SJR [Scimago Journal Rank](#)

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

Website metrics associated with this project.

## Notes

Active Users [Distinct users who visited the website](#) .

New Users [Users who visited the website for the first time](#) .

Engaged Sessions [Visits that had significant interaction](#) .

"Top" metrics are measured by number of engaged sessions.
