

## Core Project R03OD032624

### Overview

High-level info about this project.

#### Projects

1R03OD032624-01

#### Name

Using Common Fund datasets for  
xenobiotic localization

#### Award

\$304K

#### Publications

12 publications

#### Repositories

- repositories

#### Analytics

- properties

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                     | Authors                                                 | RC<br>R        | SJ<br>R       | Cit<br>ati<br>ons | Cit.<br>/ye<br>ar | Journal                                                                            | Pub<br>lish<br>ed | Upd<br>ated |

## Notes

Software repositories associated with this project.

RCR [Relative Citation Ratio](#)

SJR [Scimago Journal Rank](#)

Sorry, you're not authorized to view this data

## Notes

Repository For storing, tracking changes to, and collaborating on a piece of software.

PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open Resolved/unresolved.

Issue/PR Avg Average time issues/pull requests stay open for before being closed.

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

Website metrics associated with this project.

Notes

- Active Users      [Distinct users who visited the website](#) .
- New Users        [Users who visited the website for the first time](#) .
- Engaged Sessions   [Visits that had significant interaction](#) .

"Top" metrics are measured by number of engaged sessions.
