

# Core Project U24OD038424

## Overview

High-level info about this project.

### Projects

4U24OD038424-02  
1U24OD038424-01

### Name

UniProt Partnerships with Common  
Fund Data Ecosystem Resources for  
Protein-Centric Functional Genomics

### Award

\$2M

### Publications

5 publications

### Repositories

- repositories

### Analytics

- properties

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                  | Authors                                                 | RC<br>R         | SJ<br>R       | Cita<br>tion<br>s | Cit.<br>/ye<br>ar | Journal                 | Pub<br>lish<br>ed | Upd<br>ated        |

 **Repositories**

Software repositories associated with this project.

*Loading*

a

Notes

- Repository     For storing, tracking changes to, and collaborating on a piece of software.
- PR                "Pull request", a draft change (new feature, bug fix, etc.) to a repo.
- Closed/Open    Resolved/unresolved.
- Issue/PR Avg    Average time issues/pull requests stay open for before being closed.

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

Website metrics associated with this project.

Notes

- Active Users      [Distinct users who visited the website](#) .
  - New Users        [Users who visited the website for the first time](#) .
  - Engaged Sessions   [Visits that had significant interaction](#) .
- "Top" metrics are measured by number of engaged sessions.
