

## Core Project U54OD036472

### Overview

High-level info about this project.

#### Projects

1U54OD036472-01  
5U54OD036472-02

#### Name

CONNECT: Collaborative Network for  
Nurturing Ecosystems of Common  
Fund Team Science

#### Award

\$3.4M

#### Publications

5 publications

#### Repositories

- repositories

#### Analytics

- properties

## Publications

Published works associated with this project.

| ID                                                                                                                                                                                                                      | Title                                                                                                | Authors                                                             | RC<br>R       | SJR | Cita<br>tion<br>s | Cit.<br>/ye<br>ar | Journal                                         | Pub<br>lish<br>ed | Upd<br>ated        |

## </> Repositories

Software repositories associated with this project.

*Loading*

a

### Notes

Repository For storing, tracking changes to, and collaborating on a piece of software.

PR "Pull request", a draft change (new feature, bug fix, etc.) to a repo.

Closed/Open Resolved/unresolved.

Issue/PR Avg Average time issues/pull requests stay open for before being closed.

Only the `main` /default branch is considered for metrics like # of commits.

# of dependencies is totaled from all manifests in repo, direct and transitive, e.g. `package.json` + `package-lock.json`.

Website metrics associated with this project.

Notes

- Active Users      [Distinct users who visited the website](#) .
  - New Users        [Users who visited the website for the first time](#) .
  - Engaged Sessions   [Visits that had significant interaction](#) .
- "Top" metrics are measured by number of engaged sessions.
